BROADWAY THEATER.
"Peck's Bad Boy."
Our exchanges have nothing but praise for "Peck's Bad Boy," which will be seen at the Broadway theater on Thursday, Feb. 4, matinee and night. This popular comedy is improved in every way and thoroughly up to date. There's the same mischievous and boy Henry Peck, his chum, Jimmy Duffy, and his girl, Minnie, and the old German grocer, Shultz, all furnished up and as bright as a new dollar. Clever specialties are introduced and a most pleasant evening's entertainment is a foregone conclusion. Seats on sale.

BRADLEY THEATER.
Charles Mack in "Come Back to Erin."
"Come Back to Erin," which will be the attraction at the Bradley theater, Putnam, on Thursday, Feb. 4, with Mr. Charles E. Mack, the popular and handsome young Irish comedian and actor, with a young Irish-American mine owner from Arizona, named Dillon, who is paying a visit to the birthplace of his parents, located on the shores of Killarney.
He is made the guest of a Mrs. Burke, who is an old friend of his parents, and for the sake of all the neighbors endeavor to outdo themselves in giving him a good time.
On the eve of his departure he declares his love for one of Mrs. Burke's daughters, who, though she reciprocates his affection, refuses to go to America on account of her mother's advanced age.
Shortly after his return he receives a letter from his sweetheart saying that through a misunderstanding she had learned of a young Irish cavalry sergeant stationed in Arizona named Burke who had fallen into disgrace. She imagined that it is possibly her brother, who may still be living, and requests Dillon to enquire.
With the help of Dillon, the young sergeant is vindicated, restored to his regiment, promoted, back pay allowed, and a long leave of absence granted to visit his home.
Dillon and Burke land in Ireland together, where the young sergeant is welcomed home by his mother, sisters and neighbors, and is happily married to his sweetheart, Sheila amid the good will of all the villagers.
Seats are now on sale.

The Conn. Mutual Life Ins. Co.
Solvency, strength, growth, economy, and a complete exhibit of affairs, are the factors of corporate management in which the members of the Connecticut Mutual Life Insurance company have chief concern. Taking into account the adverse conditions that have obtained, they are themselves fortunate in certain achievements in 1908, which tell their own story.
These are the matters to invite special consideration: Earning of the dividend returned to members in 1908, and the continuance of the same general scale of distribution in 1909; a large mortality saving; marked increase in interest earnings; in premium income, in total income, in gross assets, in ledger assets, in new business over the amount written in the previous year, in the total amount of insurance in force, in surplus, in assets, in the recovery in the market value of bonds and stocks over the previous year, with a small ratio of lapses; the usual economy in all expenses, and the sale of a considerable body of real estate, taken under foreclosure, which provided a small net income, and its conversion into more productive assets.
The following are the figures that denote some of the elements in the company's current growth and prosperity:
Gain in premium income, \$24,443.41; in total income, \$28,558.97; in interest earnings, \$83,007.48; in gross assets, \$2,656,719.56; in ledger assets, \$714,384.58; in new business, over 1908, \$1,230,640.48; in total insurance in force, \$3,778,792.48; in mortality savings, \$174,797; in surplus, \$1,443,315.87.
This substantial gain represents the difference between the amount issued, increased and revived on a paid-for basis and the terminations from all causes.
Policies issued, increased and revived . . . \$12,214,657.48
Terminations . . . 9,435,265.00
Balance . . . \$2,778,792.48

Snake Scared the Employees.
Poisonous Reptile Among the Archives of Portugal's Peers.
Some time ago it was reported in the press that while workmen were searching for certain documents in the archives of the house of peers several snakes appeared from among the dust-covered volumes.
The panic-stricken employees immediately fled, and absolutely refused to return to such a dangerous occupation.
The presence of the snakes has never been accounted for.
Recently, however, all the documents were carried to the underground archives of the ministry of the interior.
Recently it was reported in the press that while the documents were being sorted out a flat-headed snake suddenly wriggled out, biting the employee on the lip. It then disappeared among the piles of documents. Half an hour later the man died in terrible agony. The body turned black and was horribly swollen.
Notwithstanding the government officials' entreaties, all the employees refuse to descend to the archives.

Business the Refuge of Small Souls.
Extreme business is a symptom of deficient vitality; while a faculty for idleness implies a catholic appetite and a strong sense of personal identity. There are dead-alive, hackneyed people about, who are scarcely conscious of living except in the exercise of some conventional occupation. Bring these fellows into the country or set them aboard ship, and you will see they pine for their desk or their study. They cannot be idle. Their nature is not generous enough, and they pass in a sort of coma those hours which are not dedicated to furious mulling in the gold mill. When they do not require to go to the office, when they are not hungry and have no mind to drink, the whole breathing world is a blank to them. This does not appear to me as being success in life.—Robert Louis Stevenson.

The Impeccable Senate.
The same impeccable senate that feels so keenly Roosevelt's shortcomings voted by an overwhelming majority to have the forthcoming census taken on the spoils basis.—Boston Transcript.

CAME SLOWLY INTO PORT.
TWO TUGS ACTING AS RUDDERS
American Line Steamship St. Louis, 24 Hours Behind Schedule—Mishap, 1,200 Miles East of Sandy Hook.

New York, Feb. 1.—The American line steamer St. Louis, which lost the heavy seas twelve hundred miles from Sandy Hook, reached her dock late today, about twenty-four hours behind her schedule. She steamed in by her twin screws, at reduced speed, and two tugs acted as rudders for her coming up the bay.
There was no excitement among the passengers after the accident. They were kept in ignorance of the mishap until Friday, when a bulletin was posted in the saloon explaining the cause of the ship's slow progress.
Capt. John C. Jamison said he and his first officer were on the bridge on Thursday afternoon when they noticed something had gone wrong with the steering gear. An unusually heavy sea had been running for hours, and the ship's rudder was often out of water as she dipped and tossed.
We slowed down and by looking over the stern guanoes, as the stern would life out of the water, we were able to make out that the two lower sections of the rudder were gone," said Captain Jamison. "After the accident we kept a uniform speed of fifteen knots, steering with our propellers, and except for the resulting loss of time but little inconvenience was experienced."

Captain Jamison said there were storms and unusually rough weather all the way across.
The St. Louis made a circle in mid-ocean to adjust her compasses just before the accident happened.
It will be necessary to drop the liner to repair her rudders. Permission was obtained from the government authorities to use the Brooklyn navy yard drydock. It is likely she will be taken there after her cargo has been unloaded.

MIDDLETOWN HIGH SCHOOL.
Not Large Enough to Accommodate Classes.

The members of the Middletown board of education have practically decided to call a special meeting of the city school district on Thursday, Feb. 4, to consider whether it is best to erect an addition to the present high school building at a cost of \$25,000 or to build a new one. The present building is a two-story structure, built in 1890, and is now overcrowded. The board has received a report from Prof. J. D. Cole, who examined the school last year. First of all Mr. Hine says that the school is approved for non-natural purposes, for the current year, and secondly, that they recommend that the accommodations at the school be enlarged and that a proposition for some time and has been made more acute by a communication from Secretary Hine of the state board of education. The report of Prof. J. D. Cole, who examined the school last year, is as follows: "The school is approved for non-natural purposes, for the current year, and secondly, that they recommend that the accommodations at the school be enlarged and that a proposition for some time and has been made more acute by a communication from Secretary Hine of the state board of education. The report of Prof. J. D.
